I am a diligent individual, with years of work experience. I have a proven knowledge of web design, website architecture, and programming, required to successfully fill the Frontend Web Engineering role at your company.

WORK EXPERIENCE

Point Blank Dev

(May 15, 2021 - Present)

Software Engineer

- Testing all currently deployed features of the site.
- Raising tickets into relevant projects upon finding bugs.
- Debugging issues, determining root cause, and updating tickets with findings and reasoning.
- Fixing issues with bugs that have an identified root cause.
- Manually testing every new change to the code.

EDUCATION

University of Lagos (October 20, 2014 - November 19, 2018)

B.Sc., Physics
